Prevent Tick Bites

IT'S YOUR BEST DEFENSE against tick-borne diseases, such as **Lyme disease**. Lyme disease may cause a bull's eye rash, but not always. Symptoms can include fever, fatigue, headache, and muscle and/or joint pain, and can become more severe if the disease progresses untreated.

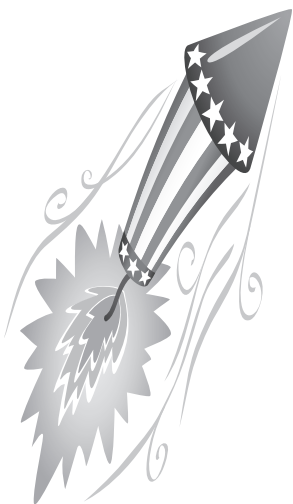

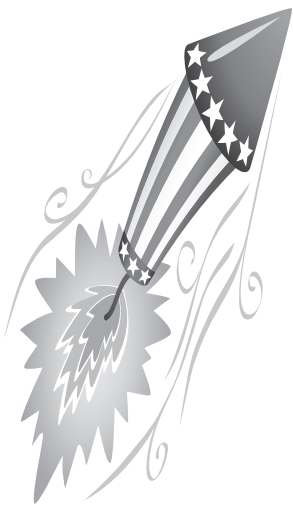

IMPORTANT PREVENTION TIPS

- » Avoid tick habitats like tall grasses and leaf piles. Stay on trails when in a forest.
- » Dress in light colored clothing so it's easier to spot ticks.
- » Tuck your pants into socks so it's harder for ticks to get to your skin.
- » Use an insect repellant; those registered by the US EPA have been tested for toxicity and effectiveness.
- » Check all over your clothes and body for ticks when you come inside.

Real Estate

280 Pleasant Valley Road

\$340,000

This early 19th-century home, originally a one-room schoolhouse near Ithaca, has been renovated within the past 20 years into a modern, spacious residence while retaining its historic charm. Features include high ceilings, a brick wood-burning fireplace, the original school bell, a large country kitchen with white cabinetry and granite counters, a bright living room with large windows, and a family room with a coal stove. The home offers two bedrooms, including a two-room primary suite with a private deck, hot tub, and views of the 9+ acre property. The layout allows for a potential third bedroom or office. The property includes landscaped gardens, a lawn, woods, a stocked pond, and scenic views. A two-car garage and a large outbuilding provide ample storage or workshop space. Located on a quiet road, it's 15 minutes from Cornell and Ithaca, with high-speed internet and recent updates.
